## **Reasons for Allowance**

Claims 1-5 and 7-14 are allowed.

This is examiner's statement of reasons for allowance.

The instant invention recites an image sensor in which function members including a light source for irradiating an object to be read with light, a sensor for receiving light reflected by the object to be read, and an imaging element for forming an image of the reflected light on a light-receiving portion of the sensor are attached to and supported by a support member to have a predetermined positional relationship,

wherein the support member is formed to have a hollow shape by gas assist molding.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
